

Smart City Project NH-08, JAIPUR APPROV

Cities accommodate nearly 31% of India's current population and contribute 63% of GDP (Census 2011). Urban areas are expected to house 40% of India's population and contribute 75% of India's GDP by 2030. This requires comprehensive development of physical, institutional, social and economic infrastructure. All are important in improving the quality of life and attracting people and investment, setting in motion a virtuous cycle of growth and development. Development of Smart Cities is a step in that direction.

The Smart Cities Mission is an innovative and new initiative by the Government of India to drive economic growth and improve the quality of life of people by enabling local development and harnessing technology as a means to create smart outcomes for citizens. After Smart City Models were conceptualized in India, Jaipur was one of the first city to Submit its Smart City Model. Chief Minister of Rajasthan invited members of Singapore Business community to set up "Little Singapore" or a Smart City in Rajasthan in the vicinity of the Delhi Mumbai Industrial Corridor (DMIC) having its major Junction Station in Phulera, near Jaipur. Resulting Phulera in Rajasthan to be considered as a destination for investment & expansion. Rajasthan Real Estate is working parallel with respective authorities & trying to meet the vision of Govt. Schemes under Smart City Missions by delivering Govt Approved projects under subsidized.

Mission – to create structures that fulfill desires

Vision – nurture the idea of luxurious living with premium townships at affordable prices

Our promise – Fulfill commitments and surpass expectations

National Heritage City Development and Augmentation Yojana clarification needed (HRIDAY) was launched on 21 January 2015 with the aim of bringing together urban planning, economic growth and heritage conservation in an inclusive manner to preserve the heritage character of each Heritage City.

The scheme was launched by Prime Minister Narendra Modi in June 2015 with the focus to establish infrastructure that could ensure adequate robust sewage networks and water supply for urban transformation by implementing urban revival projects. Rajasthan was the first state in the country to submit State Annual Action Plan under Atal Mission for Rejuvenation and Urban Transformation (AMRUT). The scheme Housing for All by 2022 and Atal Mission for Rejuvenation and Urban Transformation (AMRUT) were launched on the same day. The scheme is dependent with public private partnership(PPP) model. If required, various other schemes like Swachh Bharat Mission, Housing for All 2022, along with the local state schemes like that related to water supply and sewerage and other infrastructure related schemes can be linked to AMRUT.
